

AVOID THE HEAT

A red sports car is shown from a low angle, with its front-left tire engulfed in bright orange and yellow flames. The car is on a dark asphalt road. In the background, a yellow sports car is driving away, with a license plate that reads "MN ZX 2456". The sky is dark and cloudy.

Smoking in a
vehicle with children
under the age of 16 is

against the law
in Saskatchewan.

RCMP and municipal police are enforcing
the law, which carries a fine of \$220.00.

Second-hand smoke is harmful to EVERYONE!

In a vehicle, smoke is especially harmful to children because they are still physically developing.

Children absorb more smoke because they breathe faster than adults and inhale more air relative to their body weight.

If exposed to second-hand smoke, children are at greater risk for:

- allergies
- asthma
- behavioural and developmental problems
- ear infections
- Sudden Infant Death Syndrome (SIDS)
- throat and chest infections

Protect the **CHILDREN**
in your life by
making your
vehicle smoke-free!!
