

# **Protect** **your FERTILITY...**

**STIs affect you today and tomorrow.**

- Sexually transmitted infections (STIs) can affect pregnancies, newborn babies, and your ability to have a baby.
- Most STIs can be treated and cured.
- If you are having sex, get tested ... it is the only way to know if you have an infection.

**Protect  
yourself**

**Protect your  
partner**

**Protect your  
future baby**
