

## Connecting and Collaborating: Learning from One Another for Healthy Child Development and Well-Being

### MEDICAL STREAM

October 3, 2019 - TCU Place, Saskatoon

The Saskatchewan Prevention Institute is hosting a **one-day Medical Stream** within the overall Prevention Matters Conference 2019. The Medical Stream has been guided by a physician planning committee to fit with the overall themes of the conference, while meeting the needs of physicians and other healthcare providers in Saskatchewan. The focus of the conference, and the Medical Stream, is to address primary and secondary prevention of many factors that impact the health and well-being of children, expectant parents, and families in Saskatchewan.

*This **Group Learning** program has been certified by the College of Family Physicians of Canada and the Saskatchewan Chapter for up to 6 Mainpro+ credits.*

*This event is an Accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification (MOC) program of the Royal College of Physicians and Surgeons of Canada and accredited by the Division of Continuing Medical Education, College of Medicine, University of Saskatchewan for up to **6.0** MOC credit hours.*

You are invited to attend the entire conference, or just the one-day Medical Stream.

\*Student rate is available upon request (\$100 for Medical Stream)

To learn more about the one-day Medical Stream and Prevention Matters, go to <https://skprevention.ca/pm2019/#medical-stream>

To register for the one-day Medical Stream or Prevention Matters overall, go to <https://skprevention.ca/pm2019/#registration>

### Medical Stream Learning Objectives

**As a result of attending the Medical Stream, participants will be able to:**

1. Enhance their clinical capacity in the prevention and early detection of common primary care medical problems in prenatal and/or child populations
2. Describe strategies to engage patients and families in prevention practices for child health
3. Recognize the complexities of the interaction of social determinants of health and their impact upon health outcomes
4. Use knowledge exchange (KE) to strengthen healthcare practice and improve child health in Saskatchewan
